BAKER HEARD FROM AGAIN

CRITICIZES ACT OF PRESIDENT ROOSEVELT

Message of Condolence Sent Czar of Russia on Assassination of Sergius Displeases New York Congressman.

Washington, Feb. 20.—In the house today Baker (N. Y.) scored the president for sending a message of condolence to the czar on the assassination of Grand Duke Sergius and referred to refusal of the house to adjourn out of respect to Russians killed on the streets of St. Petersburg Jan. 22.

General applause was accorded Maddox (Ga.) when he declared the Democratic side of the house did not approve of "this damnable assassination." He said the Democrats believed in fair rights. "We don't believe in slaughter," he said, "and we don't believe in this business which caused the slaughter of the grand duke, and," he added, "the Democratic party don't stand for it now, nor will it ever do so."

Grosvener (Ohio) was bitter in his criticism of Baker, whose action he declared to have been unprecedented. Had adjournment been taken, he said, it would have been a meaningless and stupid exhibition of ignorance. The public and the world knew that the American congress did not sympathize with riot and unnecessary bloodshed. Whether it was necessary or not there was no doubt a strong critical opinion in the country, but he said no intelligent man would suggest that congress express an opinion on that subject. Grosvener spoke of Sergius as a cabinet officer of the emperor. He denied the president fell short of his duty and said that as regards the killing of the grand duke it would not be the least of his duty to have the president sent his message of condolence. "The United States," he said, "was not treating the question of the character of Sergius, nor the question of right or wrong of Russia's internal policies, but in the name of common humanity and in pursuance of time-honored precedent the president had sent his message of condolence. He ventured the assertion, and received liberal applause in doing so, that if a vote of condemnation of the president was afforded by any resolution of Mr. Baker, it would not get a vote except the latter's own. The president, he concluded, had done exactly what civilization recognized as his duty."

Later Baker created another sensation by offering the following resolution: "That, while this house views with horror the deliberate destruction of human life at all times and under all circumstances, yet it declares that reprehensible as was the murder of Grand Duke Sergius it was not more wanton than the massacre perpetrated by the Russian government Jan. 22, when thousands of unarmed men, women and children were butchered in cold blood; and that it regards the murder of those helpless, unoffending men, women and children as one of the most dastardly crimes ever perpetrated; that in refusing to express the horror of the people of this country at that fearful crime, while now asserting that 'both the American government and people view the killing of Grand Duke Sergius with abhorrence, the president has not and does not voice the real sentiments of the people of the United States.'"

In an excited manner he asserted he had been told that if he introduced the resolution a motion would be made to expel him from the house. Rushing down the aisle and waving the resolution in his hand, it was deposited in a box provided for such measures and he defied any one to make a motion to expel him.

When the excitement which his action had created had subsided an amendment to the naval bill to appropriate for one battleship only instead of two was defeated, 121 to 144, which had the effect of passing the original provision for two ships.

HOUSE.

The house today, after seven hours session, passed the naval appropriation bill, carrying a total of \$39,914,350. The provision for two battleships, as reported by the committee on naval affairs, was retained. Both the majority and minority were badly divided over the proposition, at least forty members of the latter going over to the Republicans, while about an equal number of Republicans voted in opposition.

Several important changes in the bill were made. The proposed increase of twelve hundred men and officers for the marine corps was stricken out, as was also the provision authorizing construction of a coiler somewhere else than at Mare Island navy yard in California. In order to do the work better an item of \$75,000 was inserted for proper equipment of Mare Island yard.

Several times during the debate the assassination of Grand Duke Sergius was referred to, the subject being brought up by Baker (N. Y.), who condemned the action of President Roosevelt in sending a message of condolence to Russia expressing sentiment that the government and American people viewed the act with abhorrence. The people, he declared, did view with abhorrence the massacre in St. Petersburg Jan. 22, but the president, he said, had not seen fit to send a message of condolence on that occasion.

He was replied to by Grosvener (Ohio), who took the ground that, regardless of the character of the duke or question of right or wrong of Russia's policy toward her subjects, the president in sending the message he did had done exactly what civilization recognized as his duty.

The climax came later in the day when Baker read a resolution on the subject, which he subsequently introduced, and which in effect was a reiteration of his remarks previously made. He explained his object in so doing was because it had been suggested that in that event a motion would be made to expel him. He shouted defiance to any member of the house to make the motion as he deposited the resolution and took his seat amid confusion and turmoil which the incident had created.

SENATE.

Whether the senate confers on the statehood bill will represent the party that defeated the joint statehood for Arizona and New Mexico or the party that fought for the retention of that provision was debated at length in the senate today, but no decision was reached. The usual manner is to name as conferees the two ranking majority members and ranking minority member of the committee having the bill in charge. In the present case it was contended by Gorman and Teller that conferees, if so named, would not represent the sentiment for the bill as passed by the senate. Arguments were interrupted by convening of the senate as a court to hear the Swaine impeachment charges, but will be continued tomorrow. The house managers in the Swaine trial tested their case to day and the defense opened.

CAPITAL NOTES.

The senate confirmed A. H. McTeargart to be postmaster at Panama, Ill.

The Bar amendment prohibiting the use of Indian funds for sectarian schools was incorporated in the Indian appropriation bill by the senate committee on Indian affairs today.

The house today voted to retain in the naval appropriation bill the provision for two new battleships.

The president today nominated Byron J. Price, of Wisconsin, deputy auditor of the navy department.

President Roosevelt today received a committee headed by ex-Senator McLaughlin, appointed by the recent southern interstate cotton convention, at New Orleans, to urge the creation of a commission to extend foreign markets, for cotton products. The president assured the committee he would do all he could to facilitate the movement.

All powers addressed by Secretary Hay have signified their assent to the general principle of inviolability of Chinese territory, no matter what may be the outcome of the war, Portugal filing its acceptance to day.

THE RUSSIAN REVOLUTION

EXTENDS TO EDUCATIONAL INSTITUTIONS

Professors, Students and Directors of St. Petersburg University Join in the Strike—Soldiers Prevent Trouble.

St. Petersburg, Feb. 20.—The spirit of revolution had complete possession of the great meeting of professors, students and directors of St. Petersburg university, which assembled today to discuss the question of joining in the general strike inaugurated by similar institutions in Russia, and it was decided to close the university until fall. In anticipation of possible trouble when the meeting broke up a squadron of Cossacks again paraded the streets.

From the outset student orators set the imagination of their auditors aflame with the spirit of liberty, unapologetically denouncing the course of the government; declaring promises no longer avail, that the only satisfaction would be freedom of speech, conscience and press and convocation of a national assembly. The majority coupled this with a demand for ending the war. Again and again it was declared Russia was on the eve of a revolution.

After the meeting broke up a band of more violent students tore up the emperor's portrait, stripped and demolished the frame and carried off bits of canvas and gilding as souvenirs.

Senator Shilovsky, president of the commission appointed by the emperor to ascertain the causes of discontent among working classes of St. Petersburg. In a note issued to day invites employers and workmen to elect representatives to sit on the commission and guarantee personal safety of the delegates.

AFRAID TO GO TO MOSCOW.

St. Petersburg, Feb. 20.—Although the emperor and imperial family will not go to Moscow, a great state requiem for the repose of the soul of Grand Duke Sergius will be held at Tsarskoe Selo simultaneously with the service at Moscow.

Martial law has been declared at Tsarskoe Selo owing to the numerous threatening letters being received at the palace.

WAR REPORTS.

Copenhagen, Feb. 20.—The third Russian Pacific squadron, consisting of four ironclads, four transports, passed Langeland island this morning going northward.

Tokio, Feb. 20.—Headquarters of the Japanese armies in the field reports Russian continued to shell portions of the Japanese lines Saturday. The Japanese frequently failed to respond to the bombardment which often was entirely ineffective and is described as being largely a waste of ammunition.

Port Louis, Mauritius, Feb. 20.—The Russian second Pacific squadron, with coalers, totalling seventy ships, was still at Noua Be on Feb. 16. The Russians were buying stores largely, especially wines and liquors.

NATIONALIST CAMPAIGN.

London, Feb. 20.—John Redmond, Irish leader, opened the Nationalist campaign in the house of commons today by moving an amendment to the address in reply to the speech from the throne, declaring the present system of government of Ireland is opposed to the will of the Irish people etc. Redmond's arguments followed the usual lines.

Redmond's speech was an uncompromising demand for home rule. He directly and unapologetically charged individual members of the Irish administration with incompetency. Both Redmond and Moore (Irish Unionist), who followed, made a special point of what they termed the "shameful treatment" of Sir Anthony MacDonnell in connection with differences in the ministry over the devolution scheme.

Wyndham, chief secretary for Ireland, delivered a straightforward explanation of how those misunderstandings arose. In doing so he paid a splendid tribute to MacDonnell.

The night session was taken up by T. W. Russell, Winston Churchill and others, who bitterly assailed the government's management of Irish affairs and of Earl Dudley's administration. A special cabinet meeting has been summoned for tomorrow to discuss the situation.

SENTENCED FOR LIFE.

Mason, Mich., Feb. 20.—Mrs. Carrie Joslyn, who pleaded guilty to murdering her husband by poison, and Isaac Swan, her paramour and former farm hand, were both sentenced to day to life imprisonment in the state prison at Jackson. Swan was convicted to day of murder principally on evidence of Mrs. Joslyn.

LAW UPHELD

Kansas Anti-Trust Measure Held to Be Lawful by Supreme Court.

Washington, Feb. 20.—The validity of the Kansas anti-trust law was today upheld by the supreme court of the United States in an opinion by Justice Brewer in the case of Edmund J. Smiley vs. Kansas. Smiley in 1900 was secretary of the state grain dealers' association, and the allegation in this case was that he organized wheat dealers in the town of Blanton into a trust to control the wheat at that place.

The supreme court of the state sustained the prosecution against him and Brewer's opinion upholds that verdict. He based his decision on the ground that the law was in harmony with power of the state to control its own police affairs and therefore not antagonistic to the federal constitution.

WRECK ON ROCK ISLAND

Des Moines, Feb. 20.—Two were killed and fourteen injured in an accident to the Rock Island flyer near Wola to day.

The dead: Henry Mehler, Des Moines; Rev. J. H. Johnson, of the Christian church, Harlan, Iowa.

The injured are: George West, Geneseo, Ill.; J. J. Brown, Harper, Kan.; A. E. Smock, Atlantic, Iowa; Albert Brady, Sullivan, Ind.; George Laventure, San Francisco; L. E. Kent, Morris, Ill.; Frank Bradley, Des Moines, stage factory inspector; L. J. Courtney, W. P. Herwin, E. F. Diefenbaugh, A. B. Cobb, Des Moines; G. L. Todd, John Raymond, Henry Hughes, Davenport.

The accident was caused by a broken rail.

CINCINNATI FEARS FLOOD.

Cincinnati, Feb. 20.—The crisis in the river situation is looked for by the weather bureau at any time. Mild, thawing weather over the Ohio valley. The ice is softening fast and the river gorges may be open at any time. The gorge at Putnam, 113 miles above here, started Sunday at 1:15 p. m. and to day the stream was full of soft, slushy ice moving toward the big gorge at Mayville, sixty miles above here. Never before have the gorges been so thick as this year.

STATE LEGISLATURE.

Springfield, Feb. 20.—One gram shop for every five hundred inhabitants in the state is the limitation placed upon the number of saloons in a bill to be introduced in the house tomorrow. The number of saloons in the state now runs far above this average. In many counties it is believed the bill, if passed, will result in total suspension of further licenses for some time to come.

KNIGHTS OF PYTHIAS FINANCES.

Richmond, Ind., Feb. 20.—Information has been given from the office of Charles E. Shively, of this city, supreme chancellor of the Knights of Pythias, bearing on the order's finances. This shows that on Jan. 1 last there was on hand a balance of \$44,892 and that the resources of the endowment rank in excess of liabilities was \$887,651.

DELAWARE SENATORSHIP.

Dover, Del., Feb. 20.—A feature of the senatorial deadlock to day was the description of J. Edward Addicks by Speaker Denny of the house, who voted for Henry C. Conrad, Union Republican. Denny's action places the Addicks faction in the minority of the total Republican membership for the first time since Addicks began the contest for the United States senate in 1895.

HAD FATHER ARRESTED.

Chicago, Feb. 20.—Cuthbert W. Laing, a Chicago real estate dealer, was arrested today at the instance of his daughter, Mrs. Irene Laing Malcolm. The warrant charges the larceny of \$248,843 in connection with the management of real estate left Miss Laing by her mother when a child. Laing furnished \$10,000 bond and will be arraigned March 2.

FOR DEFENDANT.

St. Louis, Feb. 20.—Judge Adams of the United States court of appeals today handed down a decision in favor of the defendant in the case of the Stratton Independence Limited company of London, England, against the estate of William S. Stratton to recover \$5,000,000.

PRIZE FIGHT.

Detroit, Feb. 20.—Willie Spracklin, of Windsor, to night knocked out Jimmy Stone, of New York, in eight rounds.

Indianapolis, Feb. 20.—Harry Forbes, of Chicago, was given the decision over Paddy Nee, of Pittsburg, at the end of a ten-round bout to night.

TO APPOINT NEW CARDINALS.

Rome, Feb. 20.—As there are nine vacancies at present in the sacred college, the pope has expressed his intention to appoint new cardinals at the next consistory. It is probable that cardinals will be given to Hungary, Brazil and Italy, but none to Great Britain or the United States.

APPOINTED TRAFFIC MANAGER.

Chicago, Feb. 20.—W. B. Hamblin, assistant general freight agent of the Burlington system, was today appointed freight traffic manager of the road.

FIGHT ON THE OIL TRUST

PETITIONS SENT TO KANSAS LEGISLATORS

Other Oil Producing States Are Taking Action—Government Aid Promised in Investigation.

Topeka, Kan., Feb. 20.—The fight of the Kansas Standard Oil was renewed in the legislature today. Petitions from all over the state have poured in urging the legislators to vote for the Smith anti-discrimination bill. There are less than a dozen townships in all Kansas that have not sent word in some manner to the assembly advocating the bill.

The manner in which the independent producers have been discriminated against by the increase in freight rates went into effect immediately after the oil trust had completed its pipe line to Kansas City is shown in the fact that all rail shipments have ceased. At present it costs 51 cents to ship a barrel of fuel oil to river points. The oil itself at present quotations is worth 31 cents. Two and one-half barrels of fuel oil are considered the equivalent of one ton of coal, leading the producers to contend that if freight rates were just they would find no difficulty in disposing of their product for fuel.

If freight rates were on a parity with the rates for other commodities they maintain the producers could absolutely ignore the Standard Oil and ship their crude petroleum by rail to a large market.

OTHER STATES ACTIVE.

Telegrams showing action in other states and urging Kansas to keep up the fight have been received here.

Indiana oil producers have organized to fight the Standard and will urge the erection of a state refinery.

Texas has a bill pending making the pipe lines of the state available to independent producers and a measure providing for a state refinery and pipe line is being discussed.

Iowa has telegraphed to the Kansas legislature for copies of the new oil laws and Secretary Walsh has had a conference with the president of the Kansas Oil Producers' association. Missouri, too, has asked that a copy of the law be sent to Jefferson City at once.

TEXAS OIL MEN AROUSED.

Dallas, Tex., Feb. 20.—The oil issue is becoming an acute one in the Texas legislature. The independents are clamoring for legislation to protect them from extortion and business considerations. They claim they are the victims of the Standard Oil, which controls the pipe lines in Texas.

OIL INVESTIGATION

Kansas Congressman Promised Assistance by the President.

Washington, Feb. 20.—President Roosevelt assured Representative Campbell of Kansas to day that all the power of his administration necessary would be used in the investigation he is undertaking through the bureau of corporations into affairs of the Standard Oil company, to the end that the small producer, dealer and consumer alike shall have fair treatment and that at the same time no injustice shall be done the Standard Oil company or any other concern.

"The president realizes," said Campbell, "that this is the most important investigation of the kind which has been undertaken and he is going into it with determination that it shall be as thorough and successful as machinery of the government can make it. He wants nothing but exact justice and fair play, but is determined to have both."

DEADLY MINE EXPLOSION

MORE THAN A HUNDRED MINERS ENTOMBED

All Are Believed to Be Dead—Rescuers Will Be Unable to Reach the Miners Before Morning.

Birmingham, Ala., Feb. 20.—An explosion in the Virginia mines, seven miles below Bessemer, entombed 166 miners. It is believed all are dead. Every effort is being made to reach the men, but it is thought it cannot be done before morning. It is stated that the accident was caused by a cave-in due to the giving away of timbers.

Details of the disaster at the Virginia mines are still lacking. The camp is almost isolated from the rest of the world, as there is no telephone station at Virginia, and the only wire running to the place is a dispatcher's wire of the Birmingham Mine railway, on which Virginia is located.

The number of men in the mine is now estimated at 110 to 135 and it is believed all the men are dead.

The very best class of miners were employed there and all belonged to the United Mine Workers of America. Relief trains with surgeons and workmen were dispatched from both Birmingham and Bessemer. At midnight they had not gotten half way through the mass of debris. It is thought it will be 10 o'clock tomorrow before the interior of the mine is reached.

The explosion is believed to have been caused by an accumulation of gas, although the mine has heretofore been noted for being entirely free from gas.

REVERSED ACTION

Legislative Committee in Colorado Contest Case Recind Former Order.

Denver, Feb. 20.—At a special meeting of the legislative committee in the Penobscot Adams gubernatorial contest, called by Chairman Griffith, this afternoon the action of the committee, last night in appointing a subcommittee to formulate for the full committee a report was rescinded. Chairman Griffith scored the members for adopting the resolution providing for the subcommittee at a time when he was compelled through illness to be absent and thus depriving him of voice in the matter.

A heated discussion followed for two hours and then a motion to rescind carried 14 to 3. Nine Democratic members of the committee and five Republicans voted in the affirmative.

COLD WEATHER BLOCKADE.

Chicago, Feb. 20.—Railroad officials estimate 125,000 cars of freight are tied up on railroads east and west of here owing to cold weather. Of this number 75,000 cars are said to be sidetracked on the eastern roads and 50,000 on western. It will require ten days or more to move this accumulation of freight to its destination and it is probable the loss in perishable stock has been very heavy.

OLD AGE

Depends Not Upon Years, But Upon Vital Force—A Great Discovery to Ward Off Old Age.

In Jacksonville lately there has been a good deal of discussion in regard to old people. Some at 50 years call themselves old, and really appear so; while others at 70 years seem active, vigorous and young.

A reporter of the Journal happened in the store of Lee P. Alcott, our local druggist, the other evening, and this subject was brought up. Said Mr. Alcott: "It is a fact, and we see it illustrated every day right here in Jacksonville; it is not years, old age does not begin at any set time, but it is loss of vital force that makes a person old. Weakened digestion, thin blood and poor circulation soon start functional powers and vitality on the wane, and then the symptoms of old age quickly appear. You know a man is as old as he feels."

"On the other hand," continued Mr. Alcott, "that old feeling may be warded off, and I wish every person in Jacksonville who feels old, whether they are so in years or not, would try the great discovery, Vinol. I know that it has vital principles which will in a natural manner strengthen digestion, assimilation and all the functional powers, send rich, red blood coursing through the veins, and give new life to every organ of the body, and this is what makes the old feel young again."

Mrs. H. W. Avery, of Norwich, N. Y., writes:

"At the age of 80 I felt the need of a tonic, something to strengthen and build me up. For a year and a half I have taken Vinol, and I have found that it brings vigor and life to the aged as nothing else will."

Mrs. Sarah J. Windrom (cousin to the late United States president, Zachary Taylor), 420 West Erie St., Chicago, who is 76 years old, says Vinol is a godsend to old people. So also does Mr. George L. Jones, Sr., of 19 Perrina Ave., Jersey City, and A. J. Baker, of 713 Locust street, Evansville, Ind.

Vinol repairs worn tissues, checks the natural decline and replaces weakness with strength. It is an ideal body builder for old folks.

We promise you that Vinol is, first of all, agreeable, because it contains no fishy oil. Second, that it is a genuine cod liver medicine, containing all the medicinal curative and strength-making elements taken direct from fresh cod livers; and third, we will return your money if it does not do exactly as we claim for it. IN MEMORIAM.

Messrs. Editors: In your issue of Feb. 7th and 9th, among the death and funeral notices, was that of Mrs. Frances Cook Ellis, and as a friend and relative I feel that I must, from my aching and saddened heart, offer a few words in her memory.

A woman going out at her age of life, possessed of such sterling qualities, leaves behind a host of friends who realize the loss they have sustained. Mrs. Ellis was a woman whose soul shone through the exterior, shedding its rays among her associates and in her home. She lived not for herself, or within herself, but for the good she could do. Her affections and earthly ties were strong.

Rearred in the old Granite state, coming from sterling revolutionary stock, who were true to their convictions, firm in their religious views, trustworthy in their daily walk and business dealings, she could not live unknown, unloved, or unappreciated; and our tears flow, and our hearts ache that she is gone.

That we shall no more enjoy her presence or welcome her "white winged" messages of love and friendship, for it was not my privilege to enjoy her personally, except through correspondence; she looked for my let-

ters with unbounded interest, for it was only through them that she heard of the friends of her youth, and the "home of her birth," which was so dear to her.

Mrs. Ellis was the last surviving child of the late Timothy and Mary Price Cook, seven brothers and sisters having "passed beyond the veil." In a little cemetery in Tamworth, N. H., marked by a granite shaft, rest the remains of her father and mother. At the center of the town stands a library building, in memory of her brother, called the Cook library. On the banks of old Bear Camp river, in a beautiful valley, under the shadow of two immense and beautiful elms, nestles the little white house in which she was born, to all outward appearances, as firm and strong as when she, in the strength and glory of her young womanhood, left it for her home nearer the setting sun.

Dear heart, that has, in all its throbbings, carried with it such great love and interest and which only such an one could carry, is now forever still. No more shall we look upon her pleasant face or enjoy her cheerful presence or correspondence. She has left us, "who a little longer wait," to mourn our loss, and to rejoice in what we know must be her gain.

"Sweet soul, be with us! Watch us still, Press nearer to our side,
Into our thoughts, into our prayers,
May thy gentle presence glide."

Mary A. Smith-MacKenzie, 85 Clarendon Ave. Lynn, Mass. Feb. 15, 1905.

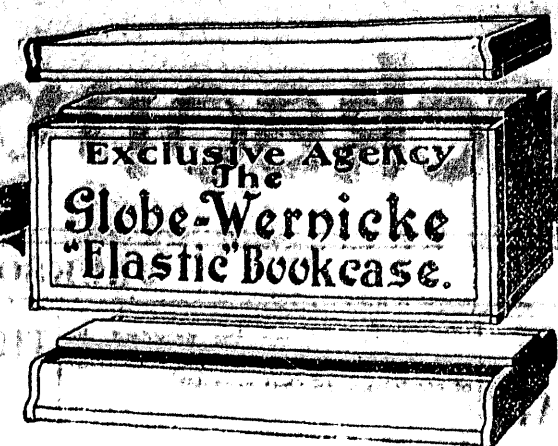

ACT QUICKLY

Delay Has Been Dangerous in Jacksonville.

Do the right thing at the right time. Act quickly in times of danger. Backache is kidney danger. Doan's Kidney Pills act quickly. Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this. F. A. Kable, of 803 East Independence avenue, engineer at the Davis & Snyder ice plant on North Main street, says: "After being cured myself by Doan's Kidney Pills procured at Dr. H. Lee Hatch's drug store, I recommended them to a friend who was suffering severely and, a few days after, seeing him almost as well as ever, he said: 'Doan's Kidney Pills are a splendid remedy.' I had such heavy bearing pains in the loins that I could hardly get up and if I stooped down to do anything my back felt as if it would almost break before I could get straightened up. Medicine did not do me any good. When I saw Doan's Kidney Pills recommended I made up my mind to try them. I experienced a soothing sensation through the loins after the first few doses and in a short time the aches and pains disappeared."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

HAMLIN FOR SENATOR.

Springfield News: The Chicago
Tribune Monday morning in an edi-
torial practically declares itself for
H. J. Hamlin for United States sena-
tor to succeed Senator Cullom. The
Tribune places him in the lead and
says flat-footed and without reserva-
tion that he is "the bogie man who
will get Senator Cullom in 1907, if
he don't watch out."

The editorial has revived interest
in the forthcoming contest. The Tri-
bune speaks of the opposition to Sena-
tor Cullom as being "based on vari-
ous grounds—some of them idle and
frivolous." Continuing, the Tribune
says in part:

"There are a good many strong can-
didates for the succession of Sena-
tor Cullom. It would scarcely be
fair to describe Mr. Lowden as one.
Still Mr. Lowden is a 'coming man,'
Senator Cullom himself sufficiently
indicated his belief that Lowden was
good enough to be governor, and if
he was good enough to be the chief
executive of the state, why is he not
fit to be senator? Mr. Lowden is an
able man and extremely popular, and
the line manner in which he accepted
his defeat for the gubernatorial nom-
ination added many to the number of
his friends. Mr. Lowden is now
'from the country, you know!' and so
doubly available.

"Ex-Governor Yates is a candidate for
the succession of Senator Cullom, and if
he can hold his old friends together he
has a chance of election.

"Lieutenant Governor Sherman is an
able and popular man and would make
an excellent senator if elected. He comes
from a good part of the state. He is a far
abler man than Cullom and has abundant
political experience.

"The strongest candidate against Cul-
lom is ex-Attorney General Hamlin—an
able man with powerful backing, political,
social and financial. Here is the bogie
man who will get Senator Cullom in 1907-7
'if he don't watch out.' Mr. Hamlin con-
sulted the map as well as the stars when
he was born. Manifestly a senator from
way down south in old Shelby county—
fateful name for Mr. Cullom—would not
interfere with the future plans of Gov-
ernor Deneen, if he should have any aspi-
rations for himself or his friends in 1908-9.
Mr. Hamlin must be reckoned with when
the next senator is elected. He has strong
support in all parts of the state and much
of it comes from Chicago, where Senator
Cullom is comparatively weak. The Tri-
bune rather expects Mr. Hamlin to be the
junior United States senator after March
4, 1907. Still, political southwayers are
notoriously inaccurate, and this opinion
must be considered an abler dictum."

General Hamlin would not discuss the
editorial. "I did not know it was in the
paper until my attention was called to it
just as I was going home at noon. I have
nothing whatever to say."

"Well, are you a candidate?" he was
asked.

"That is something I cannot answer
now."

PHI ALPHA SOCIETY.

The regular meeting of Phi Alpha

last night. The program was as fol-
lows:

Essayists—Williams, Post and E.
J. Hurie.

Declaimers—Kennedy, Stiff and
Butler.

Orator—H. A. Graves.

Reader—Massey.

Extemporizer—Cowdin.

Debate—Resolved, That the United
States should own and control the
telephone and telegraph systems.

Affirmative—McKown, Wycoff and
Smith. Negative—W. L. Hurie, Jack-
son and Simpson. The ability and
the merits were awarded the nega-
tive.

DELIGHTFUL COMPANY.

Mr. and Mrs. Harry Hopper enter-
tained the M. P. L. team, No. 289,
at their residence on Morton avenue
Monday evening. The whole team was
present and a most enjoyable evening
was spent in games and other
amusements. Excellent music was
furnished during the evening by
Messrs. Charles Bader, George Bader

and Frank Stout. Delicious refresh-
ments were served.

AT THE GRAND.

"Happy Hooligan" was the attrac-
tion at the Grand Monday evening
and a fair sized audience witnessed a
production that brought forth roars
of laughter and that belongs to that
category of plays that are classified
under the head of "Something Do-
ing." There was plenty of movement
and no matter whether the plot thick-
ened or the "villain still pursued her"
action reigned supreme. When the
cast took breath is known only to
themselves. Tempus fugit and so did
the performers.

From the above it must not be con-
strued that "Happy Hooligan" did
not please or that it was not up to
expectations. On the other hand, it
was just as advertised and one of
the best plays of its kind that has ap-
peared at the Grand. "Happy Hooli-
gan" was very clever, while the Irish
and German roles were taken in a
fine manner. For the number of
voices employed the company carries
a splendid chorus, but the work of
the soloists is not up to standard.
Nothing is attempted in scenic ef-
fect, but the costume display is elab-
orate and there is a diversion about
the piece that makes one feel he has
been where mirth and laughter reign
supreme.

The trolley car scene was decidedly
clever and was the creation of a fer-
tile brain. The situations were all well
met and many of them were very
funny.

Sells Love Potions.

A woman who has been arrested
in Berlin for fortune telling is said
to be skilled in the preparation of
love potions. According to her
recipes, a granulated substance must
be brewed with parchments contain-
ing charms, and the concoction
must be worn seven days on the
breast. Equally effective are three
hairs of the loved one and three
drops of the lover's own blood on a
slice of quince. This must be eaten
when the moon is full and with
one's eyes steadily fixed on that
luminary.

Raising Geese For the Feathers.

On a certain goose farm in the
middle west there is an incubator
with a capacity for 10,000 eggs.

These eggs are not, however,
placed in the incubator at one time,
but are so arranged that one section
will hatch each day, being refilled as
soon as the goslings are taken out.
The geese are raised on this farm for
their feathers alone, which are used
in the upholstering business.—Country

ONE MILLION DOLLARS

FOR A NEW STOMACH.

"It Is Reported That Mr. Rock-

Amount" Says Mr. Alcott,
Our Local Druggist.

"I've read about Mr. Rockefeller's
offer," said Mr. Lee P. Alcott to our
reporter, "and I wouldn't be surprised
if it were true.

"I know that hundreds of Jack-
sonville people would be willing to
part with all they possess if they
could only find some relief from
dreaded Dyspepsia. They, like John
D. Rockefeller, are too busy to worry
about the condition of their stomach.
It is said Mr. Rockefeller allowed his
dyspepsia to run from bad to worse
until it is now incurable. That's just
what will happen to some of our fel-
low townsmen if they don't get after
their trouble now. There are no
new stomachs for sale you know, but
there is a cure for old ones. I am
selling a tablet that will make old
stomachs new or I'll pay for the med-
icine. Yes—they're Rexall Dyspepsia
Tablets and I sell more of them than
all other dyspepsia cures combined."

"Do you have many come back?"
was asked Mr. Alcott. "No less than
one-third of one per cent; that's
proof that they're good. Why do I
guarantee Rexall Dyspepsia Tablets
and not others?—Simply because I
know what they are composed of and
what they will do. Confidence you
may call it, but when you have sold
as many cures for Dyspepsia as I
have and see how many are failures,
you can understand why I loan my
name to Rexall and endorse its for-
mulas. Read the testimonial from a
civil war veteran. It's only one case
out of thousands that Rexall Dyspepsia
Tablets have cured."

"I have suffered from acute dys-
pepsia for the past eight years and
could find no relief from doctors or
medicine until I procured a box of
Rexall Dyspepsia Tablets. These, I
am pleased to say, gave me immedi-
ate relief. They do all that is claim-
ed for them and are easy and pleas-
ant to take."—Capt. George W. Cook,

their money if dissatisfied.

WANT LIBRARY
BOARD CREATED

Federation of Woman's Clubs
Are Behind a Bill Asking Leg-
islature to Maintain Free
Traveling Libraries.

The Illinois Federation of Woman's
clubs is pushing a bill looking to-
ward the creation of the Illinois li-
brary extension board to "promote
the establishment and efficiency of
free public libraries and to provide
for the establishment, care and main-
tenance of free traveling libraries."

This is a work that has been car-
ried on under the auspices of the
Federation for the past seven years
and has grown to such proportions
that the women of the state feel that
the legislature should act in the mat-
ter.

The Federation now has 300 trav-
eling libraries and 15,000 volumes,
and it is proposed to turn those books
over to the keeping of the state if
the proper provision for the work is
made.

Twenty-two other states have pro-
vided for this highly educational
work, Massachusetts having been a
pioneer in the movement. The bill
proposed for Illinois is modeled after
the one in operation in the state of
Iowa. It is hoped to enlist the sym-
pathy of the farmers' institutes and
bring the libraries operated under
their auspices under the same direc-
tion. When the movement was first
undertaken by the Federation, Scorsis
of this city was among the foremost
clubs to respond to the appeal and
sent out a library consisting of a
number of very fine works.

The women have found the work
very valuable from an educational
standpoint and they should and will
no doubt receive every consideration
from the present legislature.

The bill provides for an annual ap-
propriation of \$5,000 for carrying into
effect the provisions of the act.

The Chicago Tribune, Record-
Herald, Post, News, Inter Ocean and
Chronicle have all had editorials
bearing on the subject and comment-
ing favorably.

The Young People's Missionary so-
ciety of the Congregational church
will meet with Miss Kuebler, 402
North Prairie street, this evening at

HE WOKE HIS WIFE UP

Connecticut Man Nearly Choked
to Death in Night.

No comment is needed on the fol-
lowing letter. It tells of fearful ex-
periences that have fortunately been
overcome:

"Dear Sirs:—
"Often in the night my wife had to
wake me up because I was almost
choking to death with catarrh. I had
one of the worst cases that was ever
known, and skillful physicians said it
was chronic.

"Fortunately a friend told me of
Hyomei, and I used this treatment
faithfully, and to day am free from
catarrh. I used Hyomei perhaps five
times a day and could soon see a
great change. A complete outfit and
an extra bottle cured me. I always
carry a Hyomei inhaler in my pocket,
so as to prevent any colds or slight
catarrhal attacks that are common
at this season of the year.

"Yours fraternally,
"Thos. Finchan, Putnam, Conn."

It is the easiest thing in the world
to cure catarrh or catarrhal colds if
you use Hyomei. Breathe its health-
giving balsamic air for a few min-
utes, and your catarrhal trouble will
soon be cured.

The complete outfit costs but one
dollar, and consists of an inhaler
that can be carried in the purse or
vest pocket, a medicine dropper, and
a bottle of Hyomei. The inhaler lasts
a life-time, while extra bottles, if
needed, can be obtained for 50 cents.
In Jacksonville there are scores of
well known people who have been
cured of catarrh by Hyomei. If it
does not help you, Hatch will return
your money in accordance with the
guarantee we give with every outfit.

ENTERED INTO REST

Mrs. William Russell Passed Away Monday Afternoon at Her Home on Mound Avenue—Other Deaths.

The beautiful life of Mrs. William Russell came to a peaceful end Monday afternoon, when she quietly closed her eyes on things terrestrial.

The silent messenger beckoned her without apparent warning, but she had lived a life of readiness for the dread summons and has entered into the peace and joy known to those who are of the heavenly company.

Her illness dated from Saturday noon, when she suffered a severe stroke of paralysis while engaged in her usual activities. She sunk at once into unconsciousness and never rallied from this condition.

The news of her death will come as a great shock to the wide circle of friends who have been touched by the gentle influences of her sweet womanly life.

Emily G. Gallaher was the daughter of Rev. William and Sarah Kautz Gallaher and was born March 19, 1834, in Sangamon county. Reared amid surroundings of a delightful character and in a home of refinement and Christian culture, she grew to womanhood, trained and prepared for life's duties and responsibilities and these she met in an uncommon way.

She was a graduate of the Jacksonville Presbyterian academy in the class of 1852, and the following year was married to William Russell at the home of her parents, who were then living a few miles east of Jacksonville. For fifty years Mr. and Mrs. Russell journeyed together down life's rugged pathway, the one ever watchful of the other, and both standing firmly by those things that abide and are worth while. Christian teaching was exalted in their home and being identified actively and zealously with the Presbyterian faith, they were unwavering in their devotion to that cause and their labors were singularly blessed. Just about a year ago the tie that had remained so long unbroken was severed and Mr. Russell was called up higher.

The life of Mrs. Russell unfolded itself with increasing beauty and loveliness as the years passed by, and being a woman of the home she administered to the comforts of those she loved as a tender and devoted mother, and her unselfish character also showed itself in many acts of kindness to those far removed from the tie of kinship. Mrs. Russell was one of those rare women who always saw the good side of every person and her voice was often raised in admonition against those who would criticize and condemn.

Mrs. Russell was one of the original members of the Westminster church and previous to the formation of that organization was identified with the Pisgah Presbyterian church. In church work, in charitable effort and in varied philanthropic enterprises, many can testify to the leading part she played and to the kindly feelings of her heart that found expression in the ministrations of her hands. An ardent advocate of missions, she assisted in this worthy enterprise of the church in a magnanimous manner.

Mrs. Russell has entered into the sleep that knows no awakening, leaving behind her the precious memory of a well spent life, rich in precept and example, an inspiration and comfort to those who are left to mourn.

Ten children survive: Andrew, of this city, member of the state board of pardons; William G. of Woodson; Rev. James, of Beaver City, Neb.; Mrs. Thomas Smith, of New York city; Thomas S., of this city; Mary N. Russell, of Jarales, N. M., engaged in missionary work; Elizabeth, Margaret, Catherine and Isabel Russell, all of this city.

Four sisters also survive: Mrs. Mary G. Bradley, of Citronelle, Ala.; Mrs. Sarah A. Riddle, of Chicago;

Mrs. Hannah M. Dod, of Greenwood, Mo., and Mrs. Lou G. Kirby, of this city. Three brothers, Thomas, William and James Gallaher, and one sister, Mrs. Margaret Capps, preceded her in death. Sixteen grandchildren are also saddened by her demise. The funeral arrangements have not been completed, but will be announced later.

KIMBALL.

Marcus Kimball, an old and respected citizen of Chapin, and proprietor of the well known Kimball hotel, died Sunday morning.

Mr. Kimball formerly lived on a farm west of Chapin in his younger days, but for the past twenty five years has managed the well known Kimball hotel. He was 85 years old and has been very active until about a year ago, when he began failing, and for the past three months was unable to leave his room.

Mrs. Mary Tendick died at the home of her son, Peter Tendick, near Woodson, Saturday night at 10 o'clock, at the age of 84 years, 5 months and 21 days. Her maiden name was Struck.

Funeral services will be conducted from the German M. E. church this morning at 11 o'clock, in charge of the pastor, Rev. W. C. Schulze.

The remains will be laid to rest to day in Holy Wood cemetery in Los Angeles.

RYNEARSON.

Word has been received here of the death of Mrs. Susan Ryneerson at the home of her son, William, in Manchester, Kans. She is survived by her son and one daughter, Mrs. J. H. Horn, of this city.

The remains will be brought to this city for interment.

GRAVES.

Died, at her home in Cedar Rapids, Iowa, Sunday evening, Mrs. Belle Graves, wife of Joseph Graves, at the age of about 60 years. Her maiden name was Black and she was a sister of the late Charles Black and of Mrs. John Gordon, of this city. She leaves her husband.

Funeral services will be held in Cedar Rapids Thursday.

GORDON.

Isaac Gordon, colored, died at his home in Slater, Mo., last week at the advanced age of 105 years. He was the father of William Gordon, of this city, formerly employed at the city light plant, who has just returned from Slater, where he went to attend the funeral.

AT BROOKLYN CHURCH.

This bit of philosophy is from the Sedgwick (Kan.) Pantagraph. "We hear so much about forging to the front, taking time by the forelock, seizing the bull by the horns, and the like; and also that the man with the tail-hold is entirely ignored. Nine men out of ten wisely follow and succeed, where one does who charges around at the front all the time. If you miss the forelock, seize the tail. It is hanging on more than the particular hold that counts. The man will go just as fast and nearly as far who has hold of the tail as the one hanging onto the horns; besides he can hang on better and it is less dangerous. Young man, don't be too anxious to get rapidly to the front, but hang on to what you have and you will get ahead in the world just as fast as you deserve."

New York stock market demonstrated again today in a striking manner its power of resistance against adverse influences. The market was worked decisively for reaction in periods of past speculative activity. Even though financial conditions are not active, opening on Monday morning proved of no effect, although there was hesitation and then reaction after the strong opening. But the upward movement was resumed at new points and strength of the market continued more decidedly than before.

RAILROAD NEWS NOTES

Alton Engine Off the Track in Local Yards—Happenings at C., P. & St. L. Shops—Personal Mention.

Engine No. 336 ran off the "D" rail just south of the Alton passenger station Monday afternoon about 2:35 o'clock. It was pulling the local freight No. 88 and was north bound at the time of the accident. The engine stopped at the stock yards south of the city and left the train of cars standing there while it came up to the station to receive orders. A Wabash freight was coming from the east and the signal man had given the Wabash train the signal, thereby throwing the "D" rail on the Alton main track. The Alton engine in charge of Engineer Hall was coming from the stock yards, which are about one-half a mile south of the city, and thinking that the road was clear was coming at a pretty good rate of speed. He saw the signal taken away from him while he was crossing East State street and immediately put the brakes to his engine, thereby stopping the wheels. The action under ordinary circumstances would stop the engine, but the rails were slippery and the heavy engine slid from the freight depot to the "D" rail near the passenger station. The "D" rail being open, the large engine jumped from the track onto the ties. Engine No. 224, with Engineer Yonker at the throttle, was standing in the yards at the time and was coupled to the engine and tried to pull her upon the track again. The 224 is much lighter than the former and it was not surprising that her tender jumped from the track. The train crews, assisted by the section hands, worked with the 224 until they got her on again. The 336 was then put on the rails without much difficulty. The effectiveness of the interlocking system asserted itself in this case, for had not the Alton engine been derailed, it would most likely have plowed through the Wabash freight, thereby causing a heavy loss to both companies.

which has recently been installed in the machine room, is a success. The employees are greatly pleased with it, as it saves a large amount of hard labor on their part.

CABLEING MONEY FROM THE BEYOND.

If you had a son or daughter away on the other side of the ocean, could you rest or enjoy a single moment of peace if you thought your child was suffering for the necessities of life? You would not stop to think whether the child was deserving of help or whether it had brought this misery on itself.

No! No! A thousand times no! All your thoughts would be how to get help to it most speedily. The cable wouldn't be any too quick for you. Nor would you stop to think of cost. Yet do you ever realize that some day that great ocean of the infinite—DEATH—will separate you from your loved ones? There is one way of obtaining money. You can do it at the station called "NOW."

The New York Life Insurance company, through its accumulation policies, to day offers the means of sending remittances to loved ones, after the Silent Ferryman has carried you to that "bourn whence no traveler returns." O. P. McKinsey, district manager, Room 7, Ayers' Bank Building, Jacksonville, Ill.

FIRE ESCAPE MOVED.

A force of men were employed on the west side of the Ayers block Monday removing the fire escape which ran up near the Bell Telephone company's windows. The fire escape interfered with the arranging of the wires which enter the office at this point, and it was thought best to move it farther back on the building.

A POLITICAL ANNOUNCEMENT

I desire to say to the public and to my friends in all political parties that I am a candidate for renomination for the office of mayor of the city of Jacksonville, subject to the decision of the Republican city convention.

I am willing to leave the nomination of mayor to a direct vote of the people so that they can record their choice, and will pay my share for holding the nominations in this way. I have ultimate faith in the people of this city. I believe they are observing people and that they know the true conditions as they exist to day and will be governed accordingly.

I have served you as mayor for the past four years and have tried to serve you honestly, courageously and fearlessly to the best of my ability, acting for all of the people. I will not speak of what has been accomplished during the past administration. It is plain to be seen by all. It has been my desire to make Jacksonville the best city in the state, a city among cities.

If renominated and reelected I shall do all in my power to make Jacksonville a moral city, an educational city, an industrial city and a city that we all will be proud of.

Thanking you for the confidence you have placed in me in the past, I am, yours very truly,

John R. Davis.
